化国际化布局, 打造发展新支点。

Chinese macro-economy entering the new normal, the year of 2015 saw a very challenging energy market depressed by severe oversupply and lack of effective demand. Faced with these challenges, Shenhua has been committed to the "1245" clean energy development strategy to reform and transform its way out of the economic winter, generating a profit of RMB31.8 billion in 2015. Shenhua's operating performance was one of the best among central SOEs, standing alone as an outperformer of China's coal industry, where 90% of the companies were loss-making due to severe overcapacity. To pull its weight in this nation-wide de-capacity campaign, Shenhua took the lead to slash its production by 50 million tons to alleviate and stabilize the glutted market. The company also finished the year with the best safety record in its history.

Looking ahead, the economy allows no optimism while the coal industry is still facing immense challenges with environmental pressure greater than ever. Shenhua has to prepare itself in advance and seek progress while keeping performance stable. It must gauge the trend of and better understand the market. Aiming to become a world-class clean energy supplier, Shenhua sets to seek sound and steady development under the guidance of the company's "13th Five-Year-Plan". In the coming year, we will focus on the following four tasks: pushing forward reform to identify new areas for transformation and enhancement, developing new growth engines through technological innovation; unleashing new vitality via institutional innovation; and strengthening global presence by fostering new development pivots.

The road ahead remains a bumpy and twisted one. But it is our firm belief that, with right strategies, scientific decision-making and down-to-earth efforts, we will overcome temporary difficulties and embrace a bright future. If winter comes, spring can't be far behind. We will work unswervingly to implement the "1245" clean energy development strategy and march towards the goal of becoming a world-class clean energy supplier.

"十二五"规划的圆满完成,为神华集团持续发展奠定基础、蓄势储能。经济总量不断提高,企业实力持续增强,资产总额由2011年初的5,509亿元增加到2015年底的9,314亿元,国有资产保值增值率历年都保持在103%以上。

# Successful Implementation of the "12th Five-Year-Plan"

The successful implementation of the "12th Five-Year-Plan" laid a solid foundation for sound and sustainable development of Shenhua. With increasing economic output and corporate strengths, the company has built up its total assets from RMB550.9 billion at the beginning of 2011 to RMB931.4 billion at the end of 2015, with state-owned asset value preservation and appreciation rate standing above 103% throughout the years.

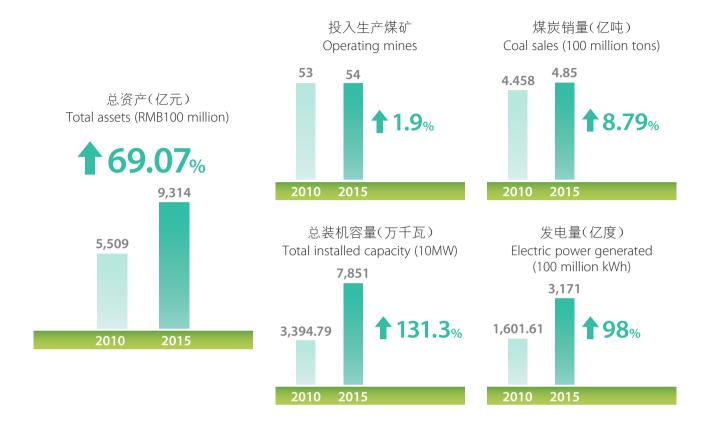

一体化产业协同优势凸显,形成了煤电油化运协同发展的整体战略布局。在煤炭市场低迷的不利条件下,电力和铁路运输创造的利润挑起大梁,利润占比合计达到90%以上。

初步实现国际国内战略布局,"十一五"末战略合作区域仅有二十个省区,目前业务已扩展至除西藏、云南、贵州、海南、台湾外的其他全部省区,在澳洲、印尼等国家有多个煤电项目。

The synergistic effect of integrated operation came to the fore and laid the groundwork for coordinated development of coal, power, oil/chemical and transportation businesses. Power and railway have risen to become main contributors to the company's profit, accounting for over 90% of total profit combined against the backdrop of a sluggish coal market.

Strategic expansion at home and abroad began to bear fruits. At the end of the "11th Five-Year-Plan" period, strategic partnerships were established with 20 provinces in China. Now our business has already expanded to all provinces except Tibet, Yunnan, Guizhou, Hainan and Taiwan, with a number of coal and power projects up and running in countries such as Australia and Indonesia.

创新能力大大提升, 科研成果丰 硕,2个科研项目荣获国家发明专 利金奖; 节能减排和绿色发展成效 显著,全面完成减排指标,"十二 五"期间未发生重大环境污染事件; 安全生产形势保持稳定,继续保持 国内领先、国际先进水平; 信息化 建设突飞猛进,集团公司在中央 企业的信息化水平排名从2009年的 央企C级第96位,跃升至"十二五" 期间在A级中位居前列:积极履行 社会责任, 实现环境友好和地企和 谐发展,神华公益基金会成立5年 来,在扶贫济困、医疗救助、文化 教育等方面捐资总额10.75亿元,受 益地区涵盖31个省、市的2,000多个 县,受益人数786万。

Substantial progress has been made in energy conservation, emission reduction and green development, reaching all emission mitigation targets while recording no major environmental incident during the "12th Five-Year-Plan" period. Production safety remained well on track, outperforming both domestic and international standards. Tremendous progress has been achieved in IT application, with the ranking of IT application jumping up from No. 96 among grade C central SOEs in 2009 to one of the top among grade A SOEs during the "12th Five-Year-Plan" period. In addition, Shenhua also actively fulfilled its social responsibilities and achieved eco-friendly development and harmonious development between the company and local communities. In the five years since its establishment, Shenhua Foundation has donated over RMB1.075 billion for poverty relief, medical assistance, and education, benefiting 7.86 million people in more than 2,000 counties across 31 provinces and municipalities.

#### 2 经营业绩 一枝独秀

2015年,国际经济形势严峻,中国 经济增速放缓,煤炭行业产能严 重过剩。全球煤炭企业普遍经营困 难,美国多家大型煤企申请破产 保护。中国煤炭需求出现十五年 以来的最大降幅,煤价连续49个月 下跌,煤炭行业亏损面高达90%以 上。煤炭业务在重重困难中奋进, 助力集团完成了318亿元的利润, 处于煤炭行业的领先地位。

关键时刻,电力业务成为集团经营业绩的重要支撑。煤炭价格下行,降低了电力行业生产成本,虽然也面临电力需求下降、发电小时减少的困难,全集团电力板块仍然实现利润232亿元,占比达到集团利润总额的73%,成为集团第一大盈利板块。运输业务跃升为第二大盈利板块,具备较强的后续增长潜力。

### Outstanding operating results

In 2015, given the grim global economic situation and the deceleration in China, overcapacity in coal sector became a pronounced problem. The global coal enterprises experienced widespread difficulties with a number of large-scale American coal companies filing for bankruptcy protection. China's coal demand registered the biggest fall in 15 years and coal prices declined for 49 consecutive months, as result of which over 90% of Chinese coal companies reported losses. Despite various difficulties, Shenhua's coal business forged ahead and helped the company achieve an annual profit of RMB31.8 billion, cementing the Group's lead position in China's coal industry.

At this critical time, electricity business became the key support for the Group's performance. The production cost of electricity industry decreased as coal prices dropped. Despite a falling power demand and generation hours, the electricity segment of the Group still achieved a profit of RMB23.2 billion, which accounted for 73% of the total profits of the Group and was the Group's largest revenue contributor. Transportation business, with a strong growth potential, jumped to the second largest revenue contributor.
